Unlimited Local Ouzo

Wine

Water and Soft Drinks

WEST ISLAND TOUR DETAILS

After taking our seats on the bus, we set off to explore the western part of the island with our Turkish-speaking guide. The first stop of the day is the magnificent Nea Moni Monastery, a UNESCO World Heritage site. This historic monastery, dating back to the 11th century, takes visitors on a journey through time with its impressive Byzantine mosaics and serene atmosphere. Our guide provides detailed information about the monastery's history, architecture, and significance on the island.

Next, we continue to the Anavatos Ruins, perched atop a rocky hill. Known as the "Ghost Village," this striking medieval settlement, with its stone houses, narrow streets, and endless Aegean views, reveals the island's dramatic history. While listening to the village's story from our guide, it's impossible not to be captivated by the breathtaking scenery.

The next stop on our tour is Avgonima Village, where the tranquility of nature meets traditional stone architecture. In this charming village, where time seems to move slowly, we take a lunch break. You can savor local flavors at traditional tavernas and enjoy a short walk through the village streets, taking in the pastoral views offered by the stone houses.

NORTH ISLAND TOUR DETAILS

Our first stop is the Windmills, one of the most iconic sights of Chios Island. Situated right by the sea, these historic structures offer fantastic photo opportunities while also shedding light on the island's cultural heritage. As our guide shares the story of the area, we have the chance to fully explore this special spot.

Next, we visit the Agios Isidoros Chapel, perched on the rocks and looking like a postcard over the turquoise sea. This small chapel leaves a lasting impression with its peaceful atmosphere, scenic views, and stories that reflect the spirit of the island.

Continuing our tour, we arrive at Lagada Village, famous for its tranquil harbor and sea-scented streets. In this charming town, where fishing boats line up gracefully, we take a lunch break. You can enjoy a delicious meal at tavernas known for their seafood or take a short stroll along the harbor.

SOUTH ISLAND TOUR DETAILS

Our tour begins by heading south from the city center. The first stop is Armolia Village, where we get a close look at mastic trees and learn about the harvesting and production process from our guide. In this village, famous for its pottery, we visit workshops and have the opportunity to explore local products such as mastic jam, ouzo, wine, and other regional delicacies alongside ceramic items.

Next, we proceed to Pirgi Village, known for its black-and-white patterned houses. We take a walk through its narrow historic streets, visit the Church of the Holy Apostles, and see the house believed to have been lived in by Christopher Columbus. A short break allows for shopping at a local store selling regional products.

Afterward, we head to Mesta Village, notable for its labyrinthine streets and historic atmosphere. With our guide, we learn about the village's architectural heritage and visit the island's largest church, Saint Taxiarchis Church. During the break, you can relax at a café in the village square or continue exploring the village streets.

The final stop of the tour is Mesta Harbor, where free time is given for a delicious seafood lunch at a traditional taverna. Afterwards, we return to our hotel, concluding the tour.
